Policy and Governance in Sustainability March 28, 2017

Barriers to Higher Diversion Rates

Education for transient populations

Non-compulsory servicing

Physical barriers for hauling

Community recycling expenses

Barrier: Education for a Transient Population

Servicing Multi-family Dwellings

Many residences do not have the proper channels for recycle pick up

Creating these would cost a lot of money so it is hard to convince landlords to do so

Also landlords have to pay for private recycling service

City does not pick up from multifamily homes due to competition with private

BUILDINGS.

100%

waste removal firms

Education of residents is a huge key to solving this problem BUILDINGS COMPARED TO MULTI-RESIDENTIAL

If they want recycling then owners will.

Subsidios for retrofitting for recycling pickup

Physical Obstacles

Lack of space

Apartment owners not wishing to overcrowd their parking lots with recycling People not wanting to overcrowd their apartments with an extra bin

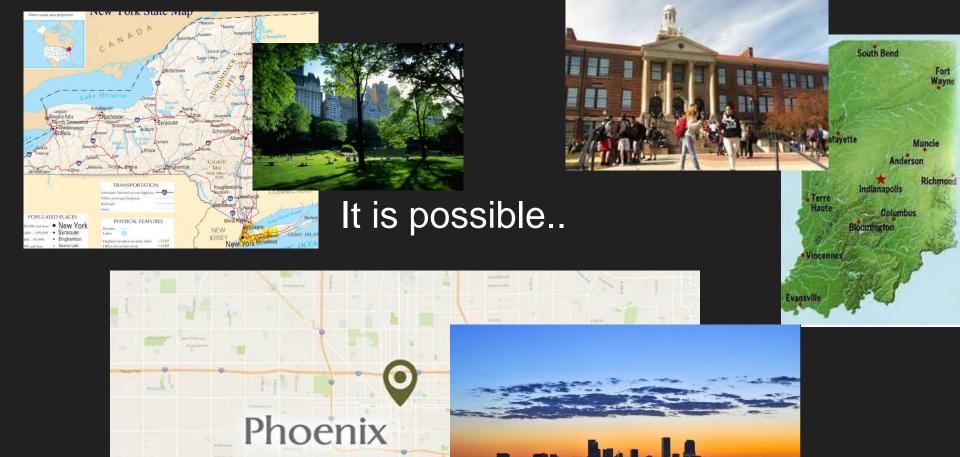

Recycling being placed too far away

Solutions: requiring developers to provide

Apply for a subsidy for retrofitting existing by pickup

Money is not the most important thing in the world. Love is. Fortunately, I love money.

Some Next Steps
